

Contact Details

www.cascinfo.co.uk is designed, developed and maintained by the Sport and Recreation Alliance, in conjunction with the [CASC Development Forum](#).

The CASC application process is relatively straightforward. However, there are several support mechanisms that exist for clubs. Firstly, [runningsports](#) has a portfolio of resources to provide skills and support for volunteers working in sport, which includes a specific workshop to explain the process and benefits of registering as a CASC

HM Revenue & Customs provide a charities helpline on 08453 020203, providing clubs with an opportunity to discuss the guidance relating to CASC registration and their individual applications.

All are members of the [CASC Development Forum](#).
